Vision Defenders is proud to present this completely restored and re-engineered 110 Country Wagon — a rugged, yet-refined SUV highlighting modern craftsmanship and cherished motoring heritage.

Vision Defenders' complete body off restoration begins with a hot-dipped galvanized chassis. The body, expertly finished in 2-stage Dark Gray, was carefully reunited with the chassis.

The stout 6.2L Corvette LS3 V8 provides spectacular acceleration, while the precise-shifting 6L80E 6-speed automatic transmission mated to a heavy-duty, center differential lock-equipped LT230 transfer case distributes constant power to all four wheels making certain that the brawny 430+ horsepower and 425+ pound-feet of torque makes it to the ground.

Powerful disc brakes at all four corners ensure stops are quiet, safe, quick, and efficient.

This 110 comes highly upgraded with performance, suspension, body, and interior and features.

Own this classic Land Rover Defender fully restored and re-engineered to exceed today's standards in comfort and performance.

Ready for immediate delivery or let us design one to your unique specifications.

Pricing starts at \$97,500.
